Report of Independent Registered Public Accounting Firm

To the Board of Directors and
Stockholders Champion Investments, Inc.

We have audited the accompanying statement of assets and liabilities of Champion Investments, Inc. including the schedule of investments as of December 31, 2014, and the related statements of operations, changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of Champion Investments, Inc.'s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included verification by confirmation of securities as of December 31, 2014 by correspondence with the portfolio companies or by other appropriate auditing procedures where replies were not received. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and schedule of investments referred to above present fairly, in all material respects, the financial position of Champion Investments, Inc. as of December 31, 2014, and the results of its operations and its cash flows for the years in then ended in conformity with U.S. generally accepted accounting principles.

Champion Investments, Inc.

Notes to Financial Statements

Note 1. Organization

Champion Investments, Inc. is an internally managed management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended, or the 1940 Act.

The Company intends to make investments in US-based early stage, emerging and small to middle-market enterprises in the technology, medical, life sciences and consumer sectors with revenues or valuations of less than \$25 million.

The Company's investment objective is to generate current income and capital appreciation by investing primarily in talented and proven entrepreneurial managers and firms who are in need of additional financial resources, minority-ownership capital or management expertise to assist them in the continued expansion and successful growth of their businesses.

The investment strategies of Champion Investments, Inc. will focus on the best opportunities for its shareholders in four investment core categories: Micro-Investments, Recapitalizations, Special Growth and Acquisitions. By employing these multiple investment strategies, the Company's model is intended to increase its flexibility to capitalize on opportunistic investments and exits, while mitigating relative risk. The management team of the Company believes these high-impact, relatively lower investment categories are currently underserved by traditional sources of individual and institutional investors.

The Company seeks to create a diverse portfolio that includes secured convertible loans, options, warrants or minority equity securities by primarily investing approximately \$100,000 to \$500,000 of capital, on average, and Company stock in the securities of early stage and emerging companies. The Company may also selectively invest more than these amounts in some of the Company's future portfolio companies and generally expect that the size of the Company's individual investments will vary proportionately with the size of the Company's capital base.

To execute these diversified strategies, the Company has assembled a management team comprised of expertise in early-stage investment funding in medical, technology and retail product organizations and emerging small business marketing and management organizations.

As of December 31, 2013, the Company's portfolio at fair value was comprised of equity investments purchased with common stock of the Company valued at \$0.10 per share. Investments were made in a medical products firm, THRUPHARMA, LLC. dba pharmaCline, a life science company specializing in pathogen genomics, bioinformatics and therapeutics and Active Faith, Inc., a consumer sports apparel firm.

As of December, 2013, the Company had equity investments in these two portfolio enterprises, with an estimated fair market value of \$457,500.

During September 2014, the Company invested in a Convertible Promissory Note with a principal balance of \$8,000 due March 2015 at an interest rate of 10% per year. This note was amended and is now due in September 2015. At the Company's option, at any time that the note is in effect, the Company may convert the principal and interest due into one half (1/2) unit of Thru Pharma LLC membership interest. The note is secured by one unit of Thru Pharma LLC membership interest.

As of December, 2014, the Company had equity and debt investments with an estimated fair market value of \$329,000.

Note 2. Significant Accounting Policies and Recent Accounting Updates

Basis of presentation

The accompanying financial statements of the Company and related financial information have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). In the opinion of management, the financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the years presented.

Fair value of financial instruments

The Company applies fair value to all of its financial instruments. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity specific measure. Therefore, when market assumptions are not readily available, the Company’s own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date. The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by ASC 820. Where inputs for an asset fall in more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment’s fair value measurement. The Company uses judgment and considers factors specific to the investment in determining the significance of an input to a fair value measurement. Our policy is to recognize transfers in and out of levels as of the beginning of each reporting period. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

Level 1: Level 1 inputs are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets.

Level 2: Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3: Level 3 inputs are unobservable and cannot be corroborated by observable market data.

The fair value hierarchy tables in Note 4 sets forth our assets that are measured at fair value on a recurring basis by level as of as of December 31, 2014.

The Company values its current investments in non-publically traded companies based on its knowledge of recent sales in private placement transactions adjusted for factors management feels is appropriate.

Any changes to the valuation methodology are reviewed by management and the Company’s Board of Directors (the “Board”) to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies. The Company performed valuation calculations on its investments as of December 31, 2014, in accordance with GAAP, resulting in unrealized losses of \$136,500.

Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation

The Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. The Company did not have any such subsidiaries as of December 31, 2014.

Cash and cash equivalents

Cash and cash equivalents are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances could be in excess of the Federal Deposit Insurance Corporation insurance limits. The Company had no investments in cash equivalents throughout 2014.

Investments and related investment income

Interest income is accrued by the Company based upon the outstanding principal amount and contractual interest terms of its investments. In addition, the Company may generate revenue in the form of commitment, origination, amendment, structuring or due diligence fees, fees for providing managerial assistance and consulting fees. Original issue discounts and market discounts or premium are capitalized, and the Company accretes or amortizes such amounts over the life of the loan as interest income. All other income is recorded into income when earned.

For the years ended December 31, 2014 and 2013, the Company received no interest income.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in the statements of operations.

Dividends and distributions

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend or distribution is determined by the Board of Directors and is based upon the earnings estimated by management.

For the years ended December 31, 2014 and 2013, the Company did not pay any dividends or distributions to the common stockholders.

Stock-based compensation

The Company accounts for stock-based awards to employees using the fair value based method to determine compensation for all arrangements where shares of stock or equity instruments are issued for compensation.

In addition, the Company accounts for stock-based compensation to nonemployees in accordance with the accounting guidance for equity instruments that are issued to others than employees.

Income taxes

Deferred tax assets and liabilities reflect the impact of temporary differences between the carrying amount of assets and liabilities and their tax basis and are stated at tax rates expected to be in effect when taxes are actually paid or recovered. Deferred tax assets are also recorded for net operating losses, capital losses and any tax credit carryforwards. A valuation allowance is provided against a deferred tax asset when it is more likely than not that some or all of the deferred tax assets will not be realized. All available evidence, both positive and negative, is considered to determine whether a valuation allowance for deferred tax assets is needed. Items considered in determining our valuation allowance include expectations of future earnings of the appropriate tax character, recent historical financial results, tax planning strategies, the length of statutory carryforward periods and the expected timing of the reversal of temporary differences.

The Company recognizes tax benefits of uncertain tax positions only when the position is more likely than not to be sustained assuming examination by tax authorities. We record income tax related interest and penalties, if applicable, within current income tax expense.

Earnings per share

Basic earnings per share ("EPS") is computed by dividing earnings available to common shareholders by the weighted average number of shares outstanding during the period. Other potentially dilutive common shares, and the related impact to earnings, are considered when calculating EPS on a diluted basis. In computing diluted EPS, only potential common shares that are dilutive, those that reduce earnings per share or increase loss per share, are included. The effect of stock options, unvested employee stock awards and contingently issuable shares are not included if the result would be anti-dilutive.

As of December 31, 2014, the Company did not have any outstanding stock options. At December 31, 2013 options to purchase an aggregate 1,000,000 shares of the Company's common stock was not included in the EPS calculation as they would be anti-dilutive. These stock options expired unexercised in April 2014.

Subsequent events

The Company has analyzed its operations subsequent to December 31, 2014 to the date these financial statements were issued for disclosure consideration.

The Board of Directors of the Company approved the issuance of 10,000 shares of common stock of the Company for legal services provided at a special meeting held on January 11, 2015. The fair value of the shares was \$0.15 each.

Recent accounting pronouncements

The company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any new accounting pronouncements that have been issued that might have a material impact on its financial position.

Note 3. Related Party Transactions

From May 15, 2009 through May 14, 2014, the Company entered into annual contracts with KGP Consulting, LLC for various investor relations and other services. KGP Consulting, LLC is owned by Kerri Parsons, who is also the Vice President of Investor Relations for the Company. On July 10, 2012, the Company issued 68,000 common stock shares to Kerri Parsons and 17,000 common stock shares on September 13, 2013 to Kerri Parsons for work performed by KGP Consulting, LLC from the periods of May 15, 2009 through May 14, 2013.

On May 15, 2009, the Company entered into an agreement with AmeriFinancial, a Houston, Texas based advisory firm, for the purposes of renegotiating the capital structure of the Company, restructuring the outstanding liabilities, liens and judgments against the Company, obtaining initial or additional financing for the Company or obtaining a

purchase or sale of the Company's assets. The Managing Director of AmeriFinancial is Steven Morgan. Mr. Morgan also holds the positions of Chairman and Chief Executive Officer of the Company.

The contract between AmeriFinancial and the Company called for payment of \$150,000 in cash to AmeriFinancial as well as fees of 5% of total savings achieved in the total overall reduction of the liabilities of the Company. In lieu of cash fees, the contract called for AmeriFinancial to be paid in common stock of the Company. The number of shares due AmeriFinancial was calculated by taking the total savings achieved by the Company multiplied by 5% and then using a price of \$0.10 per share to determine the number of shares of common stock to be paid.

Based on the above referenced calculation, AmeriFinancial was issued 3,900,000 shares of common stock in May 2013 for work performed for the period March 2009 thru April 2013. Components of the calculation included elimination of predecessor issued preferred stock, elimination of predecessor issued stock options, negotiated settlements regarding liens, law suits, past due payables, loans and professional fees. No cash payments were made by the Company to AmeriFinancial or its' officers, directors or employees. A summary of these components is as follows:

1. The return and redemption of all outstanding preferred and common stock issued to 10 shareholders prior to April 30, 2009.
2. Elimination of 50,000,000 shares of preferred stock and approximately 490,000 shares of common stock.
3. Elimination of 1,840,000,000 stock options.
4. Settlement of \$6,020,962 in outstanding liens, lawsuits and payables.
5. Issuance of 60,109,618 shares of stock in lieu of cash as settlements.
6. SEC Investigation submissions and settlement.
7. Review and analysis of all bank statements and individual checks for Years 2005-2013.
8. Preparation of Financial Statements for years 2005-2013.
9. Various submissions to FINRA regarding name change and stock symbol change.
10. Preparation and filing of all Federal and State Tax Returns for years 2005-2012.
11. Submission to State of Nevada regarding Name Change.
12. Negotiation of cash settlement to stock transfer agent.
13. Write-off of abandoned equipment, stock investments and web site.
14. Various submissions of required State of Nevada Forms and Fees for years 2009-2013.
15. Submission of all State of Texas Franchise Taxes for years 2005-2012.
16. Design, installation and maintenance of new Company web site beginning in 2009 and certain revisions from 2009-2013.

In 2013, the Company purchased common stock and membership interests in two companies with a combined market value of \$457,500 from AmeriFinancial and Kerri Parsons. These companies are Active Faith, Inc. and Thru Pharma, LLC. Steven Morgan and Kerri Parsons hold officer positions in both AmeriFinancial and Champion Investments. The purchase price of the common stock and membership interest was paid in common stock shares of the Company in lieu of cash.

Related Party Loan Transactions.

During the period May 2009 through December 31, 2012, the Company was funded on a periodic and as needed basis by AmeriFinancial. The total amount of funding by AmeriFinancial to Champion Investments, Inc, through December 31, 2013 was \$29,157. This loan had interest payments in 2014 calculated at a 5% interest rate and matured on May 30, 2014, when it was paid in full.

Note 4. Investments

The following fair value hierarchy set for the Company's assets that are measured at fair value on a recurring basis by level as of December 31, 2014 and 2013.

Year Ended December 31, 2014

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Debt.....	\$0	\$0	\$8,000	\$8,000
Preferred equity.....	0	0	0	0
Common equity.....	0	0	321,000	321,000
Structured Products.....	0	0	0	0
Total.....	\$0	\$0	\$329,000	\$329,000

Year Ended December 31, 2013

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Debt.....	\$0	\$0	\$0	\$0
Preferred equity.....	0	0	0	0
Common equity.....	0	0	457,500	457,500
Structured Products.....	0	0	0	0
Total.....	\$0	\$0	\$457,500	\$457,500

The following table shows the components of change in the Company's investments categorized as Level 3 for the year ended December 31, 2014.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3) **

	<u>Common/Equity Interests</u>	<u>Other</u>
Beginning Balance December 31, 2013	\$457,500	\$ 0
Total Realized Gains (Losses) included in Earnings	0	0
Total Change in Unrealized Depreciation or Appreciation included in Earnings	(136,500)	0
Net Amortization on Investments	0	0
Purchases	0	8,000
Sales	<u>0</u>	<u>0</u>
Ending Balance December 31, 2014	<u>\$321,000</u>	<u>\$8,000</u>

** Pursuant to fair value measurement and disclosure guidance, the Company currently categorizes investment by class as shown above.

Note 5. Borrowings

In accordance with the 1940 Act, with certain limited exceptions, the Company is only allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. As of December 31, 2014, the Company had no borrowed amounts.

Note 6. Federal Income Tax Matters

For the years ended December 31, 2014 and 2013, the Company had a net loss of \$370,986 and \$427,886, respectively. As a result, no federal or Texas state franchise taxes were due and payable. Accordingly, no provision for federal income tax was made in the financial statements for years ending 2014 and 2013 respectively.

In assessing the reliability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future results of operations and tax planning strategies in making this assessment. Based upon the level of historical tax income, significant book losses during the current and prior periods and projections for future results of operations over the periods in which the deferred tax assets are deductible, among other factors, management concluded that, at this time, that the Company did not meet the “more likely than not” requirement in ASC 740 in order to recognize deferred tax assets and a valuation allowance has been recorded for the full amount of our net deferred tax assets at December 31, 2014 and 2013.

During the periods of 2015 and thereafter, the Company will continue to assess the realizability of our deferred tax assets based on consideration of actual and projected operating results and tax planning strategies. Should actual operations improve, the amount of the deferred tax asset considered more likely than not to be realizable could be increased.

Income tax expense was different from the amounts computed by applying U.S. Federal income tax of 35% to pretax income as a result of the following:

	Years Ended December 31	
	2014	2013
Federal statutory rate	35.0%	35.0%
Less valuation allowance	-35.0%	-35.0%
Effective income tax rate	0%	0%

Deferred tax assets are comprised of the following at December 31, 2014.

	Years Ended December 31	
	2014	2013
Deferred Tax Assets		
Net operating loss carryforwards	\$3,161,712	\$3,112,192
Less: valuation allowances	(3,161,712)	(3,112,192)
Net deferred tax assets	\$0	\$0

The Company has net operating loss carryovers as of December 31, 2014 in the amount of \$9,033,462 for federal income tax purposes. If not utilized, the tax net operating loss carryforwards will expire during 2025 through 2034.

Due to this tax loss carry forward, the Company has not elected to be treated as a RIC under Subchapter M of the Code regarding its status as a business development company, and as a result will not be obligated to distribute substantially all of its respective net taxable income to its shareholders.

Note 7. Commitments and Contingencies

Commitments

The Company had no outstanding commitments to fund investments as of December 31, 2014 and 2013.

Indemnifications

In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as these involve future claims that may be made against the Company but that have not occurred. The Company expects the risk of any future obligations under these indemnifications to be remote.

Off-balance sheet risk

Off-balance sheet risk refers to an unrecorded potential liability that may result in a future obligation or loss, even though it does not appear on the statements of financial condition.

The Company had no outstanding unrecorded potential liability that may result in a future obligation or loss, as of December 31, 2014 and 2013.

Legal proceedings

In the normal course of business, the Company may be subject to legal and regulatory proceedings that are generally incidental to its ongoing operations. While there can be no assurance of the ultimate disposition of any such proceedings, the Company does not believe any disposition will have a material adverse effect on the Company's financial statements.

As of December 31, 2014, the Company was not subject to any legal proceedings or claims.

Note 8. Equity

Common stock

During the year ended December 31, 2014, the Company sold 500,000 shares in a private placement of common stock for cash proceeds totaling \$50,000. During the years ended December 31, 2014 and 2013, the Company issued an additional 891,000 and 4,210,600 shares, respectively, for services and settlement of liabilities. During the year ended December 31, 2014 the Company cancelled 175,000 shares of its common stock.

Stock Options

On April 30, 2009, the current management of the Company granted stock options to two individuals for the purchase of 500,000 shares each of the Company's common stock at the option price of \$0.10 per share, which was the current price of the stock at the time of issuance of these options. These options were granted for settlement of an outstanding invoice for consulting fees in the amount of \$100,000 from the year 2011. During the year ended December 31, 2013, the options were fully vested. The options expired unexercised on April 30, 2014.

NOTE 9. Subsequent Events

The Board of Directors of the Company approved the issuance of 10,000 shares of common stock of the Company for legal services provided at a special meeting held on January 11, 2015. The fair value of the shares was \$0.15 each.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The following is a listing of the Officers and Directors and outside providers for the Company

<u>Executive Name</u>	<u>Age</u>	<u>Position</u>
Steven C. Morgan	66	Chairman, Chief Executive Officer
Desmonde Cowdery	61	Chief Financial Officer, Chief Compliance Officer
Kerri G. Parsons, PhD	51	Vice President, Investor Relations
Marion P. Wright	62	Independent Board Director
Robert F. Hill	66	Independent Board Director

Chairman and Chief Executive Officer, Steven C. Morgan

Mr. Steven C. Morgan has been the Chairman and Chief Executive Officer of the Company since April 2009. Mr. Morgan has occupied these positions upon the installation of new management in 2009. During this period, Mr. Morgan has been directly involved in the total restructuring of the Company to include its current business model, capital structure and financial condition.

During his career, as principal, investor or agent, Mr. Morgan has been responsible for the development, operations or financing of more than 60 different companies in the technology, medical, manufacturing, energy, food, retail, hospitality, construction and real estate industries.

From 1995 to the present, Mr. Morgan has also been the Founder and Managing Director of AmeriFinancial, LLC, an organization that specializes in providing emerging organizations advisory services with regard to business model development, financial modeling, executive recruiting and capital raising efforts. Prior to founding AmeriFinancial, from 1978-1993, Mr. Morgan was the Founder, Chairman and Chief Executive Officer of Hospitality Investments, Inc., an operating hospitality and real estate organization with approximately 350 employees.

Prior to this, Mr. Morgan was selected as the youngest Vice President in the history of Servico, a publicly held entity specializing in acquiring, developing and operating hotels across the United States. In this capacity, Mr. Morgan was

responsible for all union and non-union hotel operations in the Northeast section of the United States with locations in New York City, Connecticut and Pennsylvania. He was also held accountable for the direct oversight of the Company's premiere flagship hotel and brand.

Mr. Morgan received his business degree from Washington University in Saint Louis, Missouri and his MBA degree from the University of Cincinnati.

Chief Financial Officer, Chief Compliance Officer, Desmond C.A. Cowdery

Mr. Desmond Cowdery was appointed the Chief Financial Officer and Chief Compliance Officer of the Company in September 2014. He has over 30 years of financial management experience in both public and private companies, including financial management of private equity backed businesses, entrepreneurial and emerging growth companies and international multi-location public companies.

From 2006 to 2012, Mr. Cowdery was the Chief Financial Officer for Wilson-Mohr Inc., a multi-location value-added distributor of industrial control and automation equipment based in Houston, Texas. Under his financial leadership, the firm's annual sales expanded from \$15 million to over \$60 million through a combination of five strategic acquisitions and organic growth.

From 2001 to 2006 and 2012 to 2014, Mr. Cowdery, was Founder and President of DNR Associates, a strategic CFO consultancy that specialized in assisting enterprises in their transitional change periods which included high growth situations, mergers & acquisitions and turnaround situations. During these periods, Mr. Cowdery had several consultancy clients for whom he offered financial planning, accounting and strategic advisory services.

Previous to this, from 1997 to 2001, Mr. Cowdery was the CFO of a regional homebuilder in Houston and an international oilfield drilling services organization with operations in South America. For Royce Homes, he established over \$50 million in credit facilities and implemented an innovative off balance sheet model home financing program that released over \$1.0 million of cash flow.

Prior to this position, from 1994-1997, Mr. Cowdery was the Chief Financial Officer of Isotag LLC., an early-stage entity that was developing innovative microscopic identification, security and marking products for liquid processing industries. During this period, Mr. Cowdery prepared the strategic business plan and private placement offering memorandum resulting in over \$4 million of capital from investors.

From 1988 to 1994, Mr. Cowdery held two positions at Inchcape Testing Services Inc., the US- subsidiary of a London-based FTSE-100 public company, including Regional CFO/Americas, and General Manager of Latin American Operations. As CFO, he was responsible for the accounting, finance, administration and IT functions for more than a dozen companies that covered a geographic region stretching from Argentina to Canada. He was also responsible for the firm's business development function during an aggressive M&A program, which resulted in a \$20 million acquisition.

As GM/Latin America, Mr. Cowdery assumed responsibility for a region that had recently lost over \$2,000,000. Within 18 months under his leadership, the region was profitable and exceeded budgets.

From 1978 to 1988, Mr. Cowdery held various posts at Geosource Inc and its successor company, Moorco International, in the accounting and finance departments. As Treasurer at Moorco, he was part of a management group that executed a \$125 million leveraged buy-out of the manufacturing assets from Geosource. In addition, under his tenure, senior debt was reduced by 45%.

Mr. Cowdery holds an MBA in Finance from the University of Houston and is an Associate of the Institute of Chartered Accounts in England & Wales (ACCA).

Mr. Cowdery reports directly to Steven Morgan, the Chairman and Chief Executive Officer of the Company.

Vice President, Investor Relations, Kerri Parsons, PhD

Dr. Kerri Parsons is the Vice President, Investor Relations of the Company.

Dr. Parsons is a highly accomplished executive with more than a decade of demonstrated senior management experience in diverse sectors including venture capital, consulting, non-profit organizations, gerontology, developmental neuropsychology and academia. With the establishment of Champion Investments, Inc. in 2009, Dr. Parsons has served as an integral part of the Company's core development, unique business model and investor relations programs

Since 2007, Dr. Parsons has been the Vice President of AmeriFinancial, LLC, a private investment and venture capital advisory firm with offices in Houston and Fort Worth, Texas. Her responsibilities include working with start-up or early-stage entrepreneurs to fully develop and accurately document their plans, business models and operating strategies, as well as their fundraising activities. Dr. Parsons has played a key role in the development and growth of the life sciences division of the Company. As a Company executive team member, Dr. Parsons is responsible for the creation, implementation and management for all of the Company's investor relations, including communications media, advertising, internal publications and public relation functions. She will also be held accountable for information given to the financial community.

Non-Executive Officer Management

Independent Board Director, Marion Wright

Mr. Wright brings over 40 years of experience with both major and independent oil companies in a career that covered much of the world including onshore and offshore assignments on six continents.

Mr. Wright began his career with Shell Oil Company where he advanced through various domestic and international technical and management assignments with increasing responsibility. He later worked for Pennzoil where he was Director of International Engineering & Operations followed by Devon Energy, ExxonMobil CIS and Chevron North America.

Currently, Mr. Wright serves as a Senior Executive for Texas Petroleum Investment Company based in Houston, Texas. He manages Eastern Division development and exploration, all corporate reserve reporting, business analysis and budgeting and advises on acquisitions and divestitures for the firm

Mr. Wright sits as an Independent Director on the Company's Board of Directors and contributes to the Compensation and Investment Committees of the Company.

Independent Board Director, Robert F. Hill

Mr. Hill has over 30 years of financial and operational experience in the construction, agricultural and food related industries.

In 1998, Mr. Hill founded Integrated Solutions, a business consultancy that specializes in financial management, tactical planning and core growth strategies for numerous clients in the construction, agriculture, food processing and financial service industries. Since its inception, Mr. Hill has been directly involved in providing financial assistance to over 20 early stage, emerging or small business enterprises.

Prior to the establishment of his consultancy business, Mr. Hill was a senior accountant for Ernst & Young, where he was responsible for the management of the accounting in the agricultural industry.

Other Matters

NEWS 2014

Web Site Release

September 30, 2014

Champion Investments Appoints New Chief Financial and Chief Compliance Officer

Champion Investments, Inc. (CHAM OTC: PK), a publicly-traded corporation that anticipates to be treated as a Business Development Company, is announcing the addition of Mr. Desmond C.A. Cowdery as Chief Financial and Chief Compliance Officer to the executive management team.

Mr. Cowdery brings over 30 years of financial management experience in both public and private companies, as well as a specialization in financial management of private equity-backed businesses, entrepreneurial and emerging growth companies and international multi-location public companies. The scope of his expertise and services have included entire finance, accounting and administration functions regarding financial planning and analysis, financial reporting and audits, mergers and acquisitions, due diligence, deal structuring, debt and equity financing, compliance procedures, investor relations, banking relations, tax reporting and risk management.

From 2006 to 2012, Mr. Cowdery was the Chief Financial Officer for Wilson-Mohr Inc., a multi-location value-added distributor of industrial control and automation equipment based in Houston, Texas. Through a combination of five strategic acquisitions and organic growths, he expanded the firm's annual sales from \$15 million to over \$60 million.

Prior to this, from 2001 to 2006 and 2012 to 2014, Mr. Cowdery was the Founder and President of DNR Associates, a strategic CFO consultancy that specialized in assisting enterprises in such transitional change periods as high growth situations, mergers & acquisitions and turnaround situations.

From 1997 to 2001, Mr. Crowder was the CFO of a regional homebuilder, Royce, Homes, in Houston and an international oilfield drilling services organization with operations in South America. He established over \$50 million in credit facilities and implemented an innovative off-balance sheet model home financing program that released over \$1.0 million of cash flow.

Mr. Cowdery was the Chief Financial Officer, from 1994-1997, of Isotag, LLC, an early-stage entity in the liquid processing industry. During this period, he raised over \$4 million of capital from investors. From 1988 to 1994, Mr. Cowdery held two positions at Inchcape Testing Services Inc., the US- subsidiary of a London-based FTSE-100 public company, including Regional CFO/Americas, and General Manager of Latin American Operations. His leadership led to an aggressive M&A program, valued at \$20 million.

NEWS 2014

Prior to this, from 1978 to 1988, Mr. Cowdery held various posts at Geosource, Inc. and its successor company, Moorco International, in the accounting and finance departments. As Morocco's Treasurer, he and his management group executed a \$125 million leveraged buy-out of the manufacturing assets from Resource. Senior debt was reduced by 45% and a successful IPO was implemented.

Mr. Cowdery will be responsible for all financial, legal, information systems and administrative matters for the Company, as well as the Company's financial statements, tax reports, corporate cash flow and all financial operating budgets. He will also lead the financial due diligence required for the execution of the Company's ongoing and future investments.

Safe Harbor Statement

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements made by or on behalf of Champion Investments Inc. and its subsidiaries (the Company). The forward-looking statements contained in this information involve risks and uncertainties that may affect the Company's operations, markets, products, services, prices, and other factors as discussed in filings with the U.S. Securities and Exchange Commission (SEC). These risks and uncertainties include, but are not limited to, economic, competitive, legal, governmental, and technological factors. Accordingly, there is no assurance that the Company's expectations will be realized. The Company assumes no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.
